FOR IMMEDIATE RELEASE

CASH FOR CANDY

Local Pediatric Dentist and Orthodontist Offers More Than

A Smile For Halloween Treats

New Carrollton, MD -- Earn cash for your candy, support a soldier, and brush with friends at Children's Choice Pediatric Dentistry and Orthodontics during National Brush Week , **November 2-7, 2016.**

One area pediatric dentist and orthodontist are redefining the phrase "put your money where your mouth is." Trick-or-treaters can bring their excess candy to Children's Choice Pediatric Dentistry and Orthodontics and receive $1 per pound. Dr. Jonelle Grant-Anamelechi and Dr. Ravi Sawhney have joined the movement to reduce dental disease by giving away dollars, toothbrushes and local favors in exchange for cavity-provoking candy.

Visiting your dentist twice a year and brushing daily are great preventative measures, but doing away with excess sweets altogether would really give your teeth a healthy boost," says Dr. Grant-Anamelechi. Global sugar consumption for kids increases by about 2% annually and currently sits at 50 million tons per year, which means parents need to be sure their kids teeth are being cared for more than ever. Candy, as well as hurting children's teeth, can lead to hyperactivity and weight gain.

Candy and donations will be collected at Children's Choice Pediatric Dentistry and Orthodontics from November 2nd-7th from 8:30 a.m.-5:00 p.m. The candy will then be shipped to troops overseas to support Operation Gratitude. Each child is eligible to receive $1 per pound up to five (5) pounds for all unopened, uneaten candy. In addition, the Smile Team will be available for tours and tooth brushing demonstrations.

Dr. Grant-Anamelechi and her team at Children's Choice Pediatric Dentistry and Orthodontics help establish the foundation for a lifetime of great oral health by creating an engaging and dynamic dental home for children and teens. Children's Choice Pediatric Dentistry and Orthodontics strives to provide compassionate and personalized dental care with an emphasis on delivering evidence based clinical dentistry and outstanding customer service. They provide all aspects of pediatric dentistry and orthodontics with an emphasis on infant oral health and special needs children.
